MEETING

INVITATION

TO THE 51ST SLOVENIAN LAND SURVEYING DAY
MULTIDIMENSIONAL MODELLING OF SPACE

Wednesday, 15 to Thursday, 16 November 2023

Brdo Congress Centre

Dedicated to the 12th Day of the European Surveyor and Geoinformation. You are cordially invited to join us on Wednesday, 15 November 2023, starting at 18:00.

will be held on Wednesday, 15 November, and Thursday, 16 November 2023, starting at 8:30.

This year's Land Surveying Day will focus on the multidimensional modelling of space. Traditionally, data are managed, processed, and displayed in 2D. Technological developments are breaking down limitations and bringing us into a reality that offers new opportunities for capturing large amounts of 3D spatial data quickly and efficiently. Both the third spatial dimension and the temporal dimension present a number of challenges to surveyors. At the same time, opportunities for improved geoinformation services in the public and private spheres are becoming available to the profession.

The Land Surveying Day with the Ceremonial Academy is also your opportunity to present yourselves as exhibitors, sponsors, or donors to support our efforts in making this a high-quality and successful meeting.

YOU ARE CORDIALLY INVITED TO ATTEND!
